THE EYE, THE SEAT OF VISION.

Q. What is meant by the "*retina of the eye?*"
A. The net work, which lines the *back of the eye*, is called the retina.
Q. Does light admitted through the pupil to the *retina* produce *vision?*
A. Yes; provided the light enter in sufficient quantity.
Q. What is that portion of the eye called which in some persons is *blue*, in others *gray* or *hazel?*
A. It is called the *iris*.
Q. In the centre of the iris is a circular *black spot*, what is this called?
A. It is called the *pupil*. But this spot is not a black substance, but an *aperture*, which appears black only because the chamber within it is dark. It is, properly speaking the *window* of the eye, through which light is admitted, which strikes on the *retina*.
Q. Why are some persons *near-sighted?*
A. Because the *cornea* of their eye is so *prominent*, that the image of distant objects is formed before it reaches the *retina*; and, therefore, is not distinctly seen.
Q. What is meant by the "*cornea of the eye?*"
A. All the *outside* of the visible part of the *eye-ball*.
Q. What sort of *glasses do near-sighted persons wear?*
A. If the cornea be *too convex* (or projecting,) the person must wear double *concave glasses*, to counteract it.
Q. What is meant by "*double concave glasses?*"
A. Glasses hollowed-in *on both sides*.
Q. Where is the *image* of objects formed, if the cornea be *too convex?*
A. If the cornea be *too convex*, the image of a distant object is formed in the *vitreous humors* of the eye; and not on the *retina*.
Q. What is the use of *double concave spectacle glasses?*
A. To *cast the image further back*, in order that it may be thrown upon the retina and become visible.
Q. Why are *old* people *far-sighted?*
A. Because the humors of their eyes are *dried up by age*; in consequence of which, the *cornea sinks in*, or becomes flattened.
Q. Why does the *flattening of the cornea* prevent persons seeing objects which are *near?*
A. Because the cornea is *too flat*, and the image of near objects is not *completely* formed, when their rays reach the *retina*; in consequence of which, the image is imperfect and confused.
Q. What sort of *glasses* do *old* people *wear?*
A. As their cornea is *not sufficiently convex*, they must use *double convex glasses*, to enable them to see objects near at hand.
Q. What sort of glasses are "*double convex spectacle glasses?*"
A. Glasses which *curve outwards* on both sides.
Q. What is the use of *double convex spectacle glasses?*
A. To *shorten the focus of the eye*, and bring the image of distant objects upon the retina.
Q. Why do *near-sighted* persons bring objects *close* to the eye, in order to *see them?*
A. Because the distance between the *front and back of the eye is so great*, that the image of distant objects is formed in *front of the retina*; but when objects are brought *near to the eye*, their image is thrown *farther back*, and made to fall on the retina.
Q. Why do *old* people *hold* objects *far off* in order to see them better?
A. Because the distance between the *front and back of their eyes is not great enough*; when, however, objects are held further off; it compensates for this defect; and a perfect image is formed on the retina.
Q. Why are *hawks* able to see such an *immense* way off?
A. Because they have a muscle in the eye, which enables them to *flatten their cornea*, by drawing back the crystalline lens. [This muscle is called the Marsupium.]
Q. Why can *hawks* see objects within half an inch of their eye, as well as those a long way off?
A. Because their eyes are furnished with a flexible bony rim, which throws the *cornea forward*, and makes the hawk *near-sighted*.—*From "Familiar Science," edited by R. E. Peterson.*

QUEER [illegible] READING.—We often hear strange [illegible] made either by the printers or readers [illegible] Bible, but none can exceed in ludicrousness [illegible] fact we are about to relate, and for the truth of which we can vouch. It occurred in the family of a somewhat celebrated clergyman in New York, where, of course, the service of morning devotion was rigidly adhered to. Our friend, the son, on one occasion, overslept himself, and came down to breakfast while the mother was reading the chapter. He had risen in rather ill-humor, and, regardless of what was going on, snatched up the coffee pot from the fire. In so doing he spilled some of its contents on the brightly burnished fender, which his mother—a pattern of neatness—perceiving on the instant, read as follows:—"And the Lord said unto Moses—*put down that coffee pot!*" It is hardly necessary to add that the morning service reached a somewhat abrupt termination that morning.—*Phil. MILWAUKEE:

TUESDAY: MAY 9.

For President in 1856,
JOHN P. HALE, of New York.
FOR VICE PRESIDENT,
GEORGE W. JULIAN, of Indiana.

OUR HARBOR.
A few Plain Words about it.

Our citizens, doubtless, remember the fable of the Lark and her young. The young birds over-heard a farmer say to his sons he should get his neighbors to help him cut his field of grain the next day, but the mother wisely concluded there was no danger if he relied on his neighbors, and quieted her young. The next day the farmer would call his relations to help him, but the old Lark said, there will be another failure, larklets—don't be uneasy. But when the maternal bird found that the farmer and his sons were *going* to put their own hands to the sickle, she said, "Now it is time to move—we must get out of this field forthwith."

Our people, like the credulous farmer, have been waiting for Uncle Sam to help them build a Harbor, till waiting has almost been their ruin. Our city would have been richer, to-day, *by a million of dollars*, if it had never had any expectations from the Government, and had gone to work, as it should have done, and made the Straight Cut, six years ago.

Two years ago, by the most indefatigable efforts of Hon. Chas. Durkee and Senator Walker, Congress was induced to appropriate $15,000 for a Harbor at the Straight Cut. We were deluded with the hope that, at least, a good beginning would be made last year. Vain hope! A Harbor Superintendent was appointed and contracts for materials let, and somebody cheated, but nothing done.

This Spring, our business men and forwarders wisely determined to go ahead, without waiting for Government aid, and they helped elect a chief magistrate of capacity and energy, pledged to put the Straight Cut through in the shortest time possible. Now, we thought, surely we shall have a Harbor. The city is about to rely on itself, and put its own shoulder to the wheel, and stop calling on Uncle Samuel Hercules. But there were some $11,000 of the Congressional appropriation yet unexpended on agencies, surveys, &c., and it was thought by a proper application to head quarters, this might be expended with the $50,000 voted by the city, and that the whole would complete the Harbor.

The Mayor and Council went forward promptly, and advertised for proposals for doing the work. Proposals were made by various parties to do the work, and a Committee of the Common Council report that Abel Hawley's bid is considerably lower than any other, and recommend that the city contract with him, at his proposal. This looks well enough—in fact any business man would think it prudent management. But suddenly "*Aliquis*"—a Latin word for "Anybody"—looms up in the Sentinel in this manner. And as it is a matter of much interest to our city, we give the whole portrait of the merman rising up from the spot where the Straight Cut ought to be. We copy from the Sentinel, of last Saturday:

Messrs. Editors:—Learning that the Common Council have determined to contract with Mr. Hawley for the Harbor work and materials, I wish, thro' you, to ask *somebody who knows* to answer the following questions:

What is to be done relative to the government proposals?

How far will Government consent to the arrangement?

What becomes of the $15,000 government appropriation already made?

What hope will there be of the $10,000 recommended for the *old* harbor—or the $17,000 more recommended by the Department for the new one?

What reason is there to suppose that the work here will be any better done than it has been at Sheboygan?

Is it not probable, at least, that the Government *plans* are the safest?

What is the city to gain by the Hawley contract, to compensate for the loss of all chances for the $27,000 from Government?

Who is so much to be benefited by this contract, as to refuse to have anything to do with the Government plans and appropriations, and by whose influence has it been done?

Those questions answered, I have others to ask. ALIQUIS.

And the Sentinel puts its *imprimatur* upon "Aliquis," on this wise:

"The above questions mean something, we doubt not, and we should be glad to have 'somebody who knows' answer them. It does seem to us that some arrangement might have been made by which the city and federal officers could go on together, to the great benefit of the work, and at much less expense to the city. Let us have the whole truth."

We think, too, that those "questions *mean* something," and that they are also very *mean* questions. And "Aliquis" is ashamed to put them over his own proper name, but skulks under an anonymous signature. Those questions imply—

1. That the Government will not allow the city to contract with the best bidder to expend its own $50,000 on the Harbor;

2. That if the city does so contract, the $15,000 appropriated by Congress can't be had, nor the $17,000 additional recommended by the Department for the Straight Cut, nor the $10,000 recommended for the old harbor;

3. That Mr. Hawley did not do his work well at Sheboygan, which charge we showed yesterday, by the Sheboygan Secretary, to be false;

4. That if Mr. Hawley does take the contract, we shall lose $27,000 from Government, which we have not the least assurance we shall ever get, in any event;

5. That those who control the City Government refuse the aid of the United States Government; and,

6. That some consideration connected with the contract with Mr. Hawley, is the cause of this refusal.

These charges are made interrogatively by "Aliquis." If he had had the manliness to make these charges openly, over his own signature, every one would respect him. But preferred in the manner they have been, with the semi-endorsement of the Sentinel, its only tendency will be *to prevent* concert of action between the city officers, and the agents of the U. S. Government, and delay the construction of the Harbor. It looks more like the promptings of envy and jealousy, than a sincere desire to promote the public good. There has been nothing in the conduct of the Mayor and Common Council, in this matter, nor in the character of Mr. Hawley, to justify such insinuations.

With respect to the Government appropriations, we would say, that we would have the city concede to any reasonable proposals to secure the expenditure of the Government grant in unison with its own, but we would never put the work so under the direction and control of the U. S. Government, as to depend on its good will and pleasure whether we have a Harbor or not, or when it is completed. If that is to be the condition of Government aid, let the Government keep its appropriation, and take itself out of the way as quick as possible.—There is no certainty that Congress will ever appropriate another dollar for our Harbor, and no probability that it will ever appropriate a sum large enough to complete it. Then why should we abdicate our power over this matter and surrender our title to the Straight Cut? Better go ahead with Capt. Hawley and the dredge without delay, and if Uncle Sam is unwilling to deal justly by us, let him get out of the way. But he must not send any more bloodhounds here to catch niggers, or ask us to engage in kidnapping on his account. Let us have the Harbor built where we want it, and in such a manner as will meet the wants of this city, and *let us have it this year*.

The U. S. Supreme Court has reversed the decision of the Ohio Circuit Court, that the Methodist Church South was entitled to a share of the Church property.

Suppose the Methodist Church North had been outvoted on some question in general Convention, and had seceded on that account from the General Methodist Episcopal Church, and established a Methodist Church North, would the Supreme Court have decided that the seceding body had a legal right to half the property? Who believes it?

The Madison Journal is much exercised because we published a paragraph from the Janesville Free Press just as we found it, italics and all, and pronounces it "certainly a falsehood." How the editor of the Journal can know that Mr. Briggs never made such a speech, we cannot divine, and its oracular statement is, to say the least, suspicious.

Mr. Briggs *did* say to us, after the trial, that he *believed* Judge Hubbell guilty, but that the evidence before the Court did not prove it beyond doubt.

Ripon.—The *Ripon Herald* estimates the present population of that village at 1,200, while a year ago it did not contain over 500 or 600 inhabitants. It also adds:—"*The number of distinct buildings commenced in the village of Ripon, during the month of April, just past, is twenty-seven, being over one for each work day.* In April, 1853, there was commenced thirteen." It says Ripon has a marked future for it. Of course it has; most towns have.

The Baraboo Standard thinks man-hunting a subject for mirth, says the slave, of which our correspondent wrote from Kingston, could not have been a slave, or he would have heard more about it, and that the hunters "did, to help the nigger along, give some cause for the suspicion that they were kidnappers." The Standard, evidently, considers kidnapping a funny business.

Falling of a Church Gallery.—The Gallery of the Catholic Church at Erie, Penn., gave way on Sunday last, precipitating a large number of people into the crowd below. Several were fatally injured, and at last accounts one had died, and the lives of two or three others were despaired of. The Gallery, at the time of the accident, was densely crowded.

Hung.—Hendrickson was hung at Albany, for the murder of his wife, at 17 minutes past 12 o'clock, on the afternoon of the 8th inst.—He walked to the scaffold apparently without fear, and died without a struggle. All the confession he had to make was made to Dr. Kennedy.

The Pennsylvania Senate, May 1st, voted, 17 to 13, to appropriate $1,800 to the Pennsylvania Colonization Society to aid in transporting negroes to Liberia. Doubtful if the House concurs.

The Universalist denomination at Chicago, are about to commence the erection of a splendid House of worship. This society owns $20,000 worth of real estate.

The *Madison Argus* says that there are about sixty dwelling houses in process of construction in that village, the average cost of each of which is from $1,000 to $1,500.

Waupun Prison.—A friend writes that between thirty and forty hands, besides the prisoners, are now engaged on the Prison at Waupun.

One hundred and fourteen laws of a general nature, and twenty-nine local laws, were passed by the Ohio Legislature, just adjourned.

"There are abler writers in the State than Mr. Paul," of the Kenosha Democrat, says the News, of this morning. Nobody doubts it.

The *Chicago Tribune* describes a portable circular saw machine, which has just been invented in that city.

Philadelphia has paid the first instalment of a subscription of one million dollars to the Erie and Sunbury Railroad.

Mr. Meagher's name has been withdrawn from the *Citizen*, as one of the conductors of that journal.

The Kalamazoo (Mich.) merchants lost by the propeller *Princeton* some $7,000 worth of goods—a large part of which was insured.

Bridge Burnt.—The bridge across the Potomac at Washington, D. C., was destroyed by fire on the 5th inst.

The new Opera House on 14th Street, N. Y., has been leased to Max Maretzek, for $20,000 per annum.

The Liberty Men of 1844 Vindicated.

The New York *Tribune*, of April 7, contains the following truthful editorial, which is a complete vindication of the men who voted for Jas. G. Birney, in 1844. It is sound doctrine:

"The gambler, the drunkard, the adulterer, are not generally considered as disqualified for exercising political influence and power. Their vices, though offensive to our taste and reprehensible by our moral sense, are for the most part private and personal, and they may, and often do, have the clearest perceptions of justice and of the political rights of others. Government is the fountain of law. Law is the root of right. Politicians have to do only with questions of equity. It is for the statesman to investigate and determine what are the rights of the subject and the duties of the State.—Slaveholders are not so much morally as politically incapacitated for statesmanship. From this state of things, government in their hands become a tyranny and a terror. *They cannot be capable of deciding questions of right*, propositions involving the idea of justice, who hold toward their fellow men relations in the last degree cruel and unjust. Shall we trust him to legislate for us and our families, who has confiscated the liberties, property, and persons of all the poor families in his neighborhood? *To have the destinies of a Republic controlled by an oligarchy of slaveholders, is as absurd as to have a robber convicted by a jury of highwaymen.* Society need not trouble herself about her other criminals, if those who perpetrate the outrages involved in Slavery go quietly at large. It might be thought that in a Democracy a slaveholder could be no more safely trusted with power than a monarchist. Neither believes in the theory of popular rights; to either the Declaration of Independence is either a self-evident lie or a rhetorical flourish. Each should be carefully watched to prevent him from corrupting the minds and subverting the liberties of the people. It is not to be wondered at that the seed so diligently sown should in due time bring forth its fruit. If the General Government had as carefully cherished Monarchy as it has Slavery, we should expect to find monarchical principles generally prevalent. When the breeders and traders in human flesh have been driven from political supremacy in the National Government, as for very very decency's sake they should be, one principal fountain of popular corruption, upon the swelling flood of which such men as Pierce, Cushing and Douglas have swum into power, will be dried up."

Black Warrior Affair.

Official advices have been received at Washington from Mr. Soule, Minister to Spain, announcing the refusal of that Government to make any reparation for the seizure of the Black Warrior.

The conduct of Spain in this matter will quite probably be considered a sufficient pretext, by the present fillibustiering Administration, for the seizure of Cuba by way of reprisal. The Slave Power have long been watching—as the tiger watches for his prey—for a favorable opportunity to seize upon Cuba, wrest her forcibly from Spanish domination, and annex her to the United States, for the sole purpose of increasing the power and area of Slavery.

The President thinks, or feigns to think, that the Spanish authorities of Cuba have offered a great indignity to the United States, committed an almost unparalleled outrage upon our rights, and if Spain refuses to make reparation, we must obtain redress by appropriating to ourselves a portion of her territory. This may be good logic for fillibustiers, but cannot receive the sanction of honest and cool-minded men; who would preserve the honor and integrity of our government from blemish. The outrage committed against the Black Warrior was a fancied one. The Spanish authorities violated no law, but only enforced one which had long been slumberous—a law which they had a perfect right to enforce at any time.

The Nebraska Bill in Wisconsin.

The following extract from a private letter from an intelligent and observing gentleman, residing in the Third Judicial Circuit, gives a correct idea of the sentiments of the people of this State, on the attempt, making in Congress, to surrender the remaining portion of our national domain, yet unorganized, into the hands of the slave propaganda. He says:

"The Nebraska question is working wonders. Blair (the recent democratic candidate for Judge in that circuit,) was all through this county, electioneering for Judge; but at every point, his course on this question, was shoved at him—hence his small vote in this county.—I have not seen a man here, who favors the Nebraska bill."

Such a condition of things will be found throughout the State. Only a few politicians, anxious to show their zeal for "Democracy," by lending their influence to extend human slavery in every possible manner, favor the scheme of Douglas and President Pierce. And yet, some of the leading democratic papers of the State, thankful for favors past, in the way of government patronage, and hopeful of other favors yet to come, are advocating this infamous measure. The zeal of the Argus of this place, the Morning News and Kenosha Democrat is unbounded. Each a recipient of pecuniary favors from the National Administration, the reasons for their so grossly misrepresenting the sentiments of the people of the State on that subject, are too manifest to require further explanation.—*Madison Journal.*

The Wisconsin Pinery says that there is to be a new religious sect, and calls them the Anti-Nebraskaites.

Well, what of it? There ought to be something got up where friends of freedom can be associated on moral principles, and not be ridden to death by the party hacks, who can be bought and sold for a little government patronage, and are always the ready tools for the people's oppressors.—*Monroe Sent.*, (*dem.*)

The Dublin *Nation* has quite turned upon its old friend John Mitchel. It says:

"His brain appears to have been turned, his heart to have grown hopelessly malcontent in exile, and he sees the world again only to scoff and sneer, and make it echo with his egotism. Eight numbers of his paper still leave a doubt whether the writer is merely a little insane, or a good deal possessed of a devil."

Thomas H. Benton is again to represent Missouri in the U. S. Senate, according to the St. Louis *Democrat*. The election of eighty Benton Democrats to the Legislature, in the recent election, secures this result over all opposition united.

Dr. David Dale Owen, of Indiana, has been appointed by the Governor of Kentucky, State Geologist for that State. The selection is an admirable one. Dr. Owen is without a superior in that department of science.

A Healthy Sign.—Since the Wheeling *Times* took its stand for the abolition of Slavery in Virginia its subscription list has increased rapidly. Fifty-four daily and weekly subscribers were added to its list on Monday last.—*Pittsburg Dispatch.*

A large body of Poles and Hungarians, from various parts of the Western States, left Cincinnati, on Wednesday, for New York, en route for Europe, for the purpose of joining the Turkish army.

A letter from Shanghai expresses a doubt of the [illegible] of the Expedition, in relation to opening the ports of Japan.

Our Railroad.—On Thursday last we had an opportunity of seeing many of the old residents of Milwaukee, in attendance at the meeting of the Milwaukee and Watertown Railroad Company.

The chief business of the Board was the location of the Depot Grounds in this city. The citizens on the West side of the river, were exceedingly anxious that a portion at least, of the business of the railroad should be done on their side of the river. With commendable zeal and liberality, they had taken the necessary steps to secure lands proper for depot purposes, and made a tender of them to the Company. The lands lie near the geographical center of the city, a short distance west of the place where the State Fair was held, last fall, and it is probably the best point in the city for the location of a depot.

After a survey of the premises and canvassing the merits of the proposition the Directors passed a resolution establishing the Freight Depot upon the grounds above alluded to. The Passenger Depot is located upon the east side, for a certain number of years.

By a notice in our paper to-day it will be seen that the Company are ready to let the contract for building the bridge across the river in this city. They have also ordered the letting of contracts for the construction of the road from here to Columbus.

We are informed by Engineer Broadhead, that the laying of the rails will be commenced on Monday next, and pushed ahead as fast as possible. Several hundred tons of iron are now in Milwaukee and sufficient on the way to finish the road to this city. We are given to understand also, that the design is to have the cars running to this city by September next, in little over three months. We hope to see it accomplished, as the produce business this fall will be heavier than ever.—*Watertown Register, 6th inst.*

Distressing Accident.—A fatal casualty occured at the Woodcock Diggings, near this town, on Wednesday, at about 11 o'clock A. M. Mr. William Pascoe and his partner, Mr. Webster, were timbering a drift, in wedging they drove so tight as to cause the wedge to spring back and immediately the whole mass of rock and dirt fell in, burying Mr. P. and knocking his partner out of the drift. As soon as the news could be spread, a large number of miners promptly repaired to the spot and commenced digging, with the hope of extricating the unfortunate individual before life should be extinct, but owing to the unsafe situation of the diggings it was not until about 3 o'clock in the afternoon that his lifeless remains were taken out. The position in which he was found rendered it certain that life must have been extinct in a very short time after the drift fell in. Mr. Pascoe leaves a family and a large circle of warm friends to deplore his loss.—*Platteville Am.*

The Drouth.—If we were disposed to give credence to the croakings of Millerites we would be led to conclude that the *last* day fixed for the destruction of the world would be the most propitious, as the earth is dry enough to burn without shavings to start it. That venerable individual, the oldest inhabitant, cannot recollect the time when it was so dry. To this may be added another misfortune—frosts have killed spring wheat and oats, and farmers say that unless they are revived by rain soon these crops must perish. At this writing there are symptoms of a shower.—*Platteville Am., 5th inst.*

Slavery Existing in Nebraska.—A letter from William Walker, chief of the Wyandott tribe of Indians, formerly of Ohio, says that slavery exists in Nebraska among the whites and Indians, in defiance of the compromise of 1820. It has been in existance ever since it was organized as an Indian Territory. True, there are not many slaves, but still slavery exists. Some slaves are held by the Indians by virtue of their own laws and usages, and some by regular bills of sale from citizens of Missouri, while white settlers from the latter State never hesitate to bring slaves with them.

National Typographical Union.—This body, which has been in session for several days at Buffalo, adjourned on last Wednesday evening, to reassemble next year, at Memphis, Tennessee. After the adjournment the convention partook of a sumptuous dinner at the Mansion House, under the auspices of the Buffalo Union. The city press speaks of the occasion as one of great enjoyment to all participants.—*Chicago Press.*

Mr. Thomas O. Larkin, of San Francisco, has made a donation to Bishop Kip of 640 acres of land for an Episcopal College. The Bishop has selected a site for it in the Sonora Valley, 30 miles from San Francisco, and application is to be made to the Legislature for a charter of the proposed institution, under the name of the "Trinity College of Larkin." It is anticipated that it will be liberally encouraged by donations from other quarters.

The Flood.—The Delaware, on Tuesday, bore unmistakable evidence of the tremendous freshet, caused by the late rains. Immense quantities of drift wood, whole rafts of lumber, logs of timber and scantling, passed down with the tide. It is evident that the work of destruction among the rafts on their way to this market has been immense.—*Phil. Sun, 6 inst.*

Our Wheat Crop!—*A Failure!!*—The warm, showery and delightful weather of the past two weeks, has worked a wonderful change in the appearance of the wheat crop in this county. The farmer's declare if such a state of things continue, their crops will average but a very little above *forty bushels* to the acre. Let us hope, however, for the best.—*Baraboo Stand.*

In 1848 Oshkosh probably contained about 80 souls. We are not now able to say exactly what our present population is, but we think not far behind the Fountain city; and when the improvement is completed, with or without a Railroad, we expect to be a *leettle* ahead of any city on the waters. See if we dont—*Oshkosh Dem.*

A new enterprise is on foot in New York. It is that of establishing a line of steamers to Liberia. The capital is to be $100,000, and it is said that one half of that sum has been already subscribed. Mr. Anson G. Phelps is the President of the company. They intend to apply for the contract for carrying the mails to Africa.

Manchester, N. H. has now 17,000 inhabitants; in 1840, it had but 3,535. Thirty years ago, it was one of the poorest towns in the State, with only 1,000 to 1,500 inhabitants, subsisting by fishing and a poor apology for agriculture. Manufactures have since effected the transformation.

The Caloric Ship.—Ericsson's vessel will probably be afloat again this week. Steamtugs and derricks have been brought to her assistance, and last evening she was slightly moved in the mud. She lies just off the Cunard wharf at Jersey City.—*N. Y. Dem.*, 3d inst.

More Arrivals.—The Express train on the Underground Railroad, came in this morning with 44 passengers, mostly adults. They came through Cleveland on their way from the land of Liberty, Spread Eagles and Matt. Wards.—*Detroit Trib.*, 6th inst.

Grass Crop.—We are informed by one who has been in the country that the grass crop is coming forward rapidly, and pastures look finely. There is every prospect now of an abundant yield.—*Detroit Dem.* 6th inst.

Fire.—The dwelling house of Mr. P. Calvert, on the head of Platte, was destroyed by fire, last week, together with all its contents. The house was new and not insured. The loss is about $1000.—*Platteville Am.*, 5th inst.

Madison Prices.—Best Winter wheat $1,25; club wheat $1,15; oats 25c; barley 50c; corn 37a40c.—*Argus*, 6th inst.

Ohio Benevolent Institution—*Education of the Blind.*—The report of the officers of this Institution is before us. They announce its continued prosperity. They also urge the necessity of larger buildings, as the present building is insufficient for the accommodation of those already in attendance and prevents many from receiving the benefits of the Institution. It is proposed to instruct the blind in some mechanical trade.

The number of blind persons inmates of the Institution during the year 1853 was 72. Number admitted eleven. This is the average admissions for the last five years. The following table contains an estimate of the number of blind in Ohio, classified according to age:

The School Fund of Wisconsin.—The Manchester (N. H.) American lays before its readers the following item of news:

"Wisconsin has a school fund of about $10,000, the interest of which is to appropriated forever to the education of the people."

The American has made quite a mistake in its figures. The late report of Superintendent Ladd estimates that our school fund will ultimately, when it becomes available, not vary far from $5,000,000. The actual apportionment for the year 1853 to school districts, for teacher's wages, was $56,128,31. The Superintendent estimates that the amount for distribution for the present year will be $77,530,28. This would be a somewhat large interest to accrue from $10,000.—*Madison Jour.*

Lively Times in Oshkosh.—Our city has never before shown such unmistakeable signs of prosperity as it does this spring. Business of all kinds is conducted on an increased scale, merchants are enlarging their stores, and citizens their dwellings. New buildings are going up all over town, and real estate is rising rapidly in value. Our hotels and streets are filled with strangers, and every steam boat arrival adds more or less to the population of the place.—The amount of travel to, and through this city greatly exceeds that of any former season, and we have reliable authority for stating that the quantity of freight landed at our docks since the opening of navigation on Lake Winnebago, is more than double the quantity landed during the same period last year.—*Oshkosh Cour*, 5*th inst.*

Madison Institute.—This society has at length organized, and rented rooms in Bruen's Block where its members intend to establish a library and reading room. Members are admitted on payment of three dollars, members for five years on payment of ten dollars, and life members on payment of thirty dollars.

The following gentlemen have been appointed a committee to solicit donations and subscriptions, Messrs. Geo. P. Delaplaine, H. K. Holley, Beriah Brown, E. W. Keyes, and J. P. Atwood.

We understand that a Debating Club will be organized in connection with the Institute within a short time.—*Madison Jour.*

NOTICE.—We will receive on deposit at par the Bills of the *Erie and Kalamazoo Rail Road Bank*, the *Merchants' Bank of Macon, Georgia*, and the *Farmers' Joint Stock Banking Co of Toronto, C. W.*, as usual.

THERE is to be a meeting of the Common Council, this evening, to take action on the subject of issuing the bonds to the Milwaukee & Watertown Railroad Company, already voted by the city. If unexceptionable security is given, there is no reason why these bonds sho'd not be issued. The completion of the Road will be of great advantage to this city. Every mile of railroad completed is a link added to the chain of our prosperity. We understand that the amount asked for, is $75,000, or but $2,500 per mile.

WE notice our friend BROOKS has taken rooms in Kirby's Block, to which place he has removed his paintings. He has the walls of a large room literally covered with paintings, all of which are well executed, and some of them are really magnificent. We learn that he intends giving a public exhibition sometime this week.

OUR old friend, GEORGE R. SYMES, has taken the establishment formerly occupied by J. W. Gray, on Wisconsin Street, and will attend to the duties of his profession promptly. He is an old favorite of the public, and we are glad to see him back again.

ANGEL GABRIEL.—JAS. ORR, frequently called the Angel Gabriel, who preached in the streets of this city last fall, caused considerable disturbance by preaching in the streets of Boston, on Sunday last. His friends took him to Chelsea where he resumed his preaching, and a riot ensued, resulting in the injury of several persons. It was finally suppressed by the firemen and police, but broke out again in the evening, and severe fighting between the Americans and Irish took place, and the latter were driven from the ground. An attack was made upon the Catholic Church—windows were broken—Sheriff read the riot act, and the military were called out, when the rioters dispersed.

A new musical wonder has sprung up at Stockholm, Sweden. It is said that her voice is more wonderful than that of Jenny Lind She has taken the people of her native city by storm, and set them frantic from excitement. It is said that she so enraptures her hearers by her singing, that the musicians of her orchestra frequently forget themselves and stop playing.—Her name is Mitchelet.

The British ships now engaged in the Arctic regions in search for Sir John Franklin, are to leave in the summer of 1855, and not to wait the winter of that year. Should England be engaged in hostilities with any other power, they are to take no part in it, it being the established practice of all civilized nations to consider vessels engaged in scientific discoveries as exempt from the operations of war.

Crystal Palace Poetry—One of the Rejected Odes.

A correspondent of the Philadelphia Bulletin, publishes his Crystal Palace Ode, which is so much better than the Prize Ode that we cannot refuse room to it:

Prize Ode.

BY WOOLY HOSS WALRUS.

Lo! the momentary darkness
From our Palace floats away;
Lo! the glorious brain of Barnum
Promises to make it pay.

See again the glad stockholders
Meet and rub their itching palms,
And in Barnum's glowing programme
Read the high-faluting flams.

Here behold the great Barnumbo!
Aye, with him the profits come;
He who coined the shinning dollars
From the play of Uncle Tom.

Only by the mind of Barnum,
Throbbing with assured success,
Can the 'holders build their Palace
In great Gotham's wilderness.

[On the next verse I have *spread myself*—]

Nations! hear that mighty music,
Rolling round like mountain bears—
Bridging deserts, planting oceans,
Marrying all the stars in pairs;

Telling that the Crystal Palace
Glorifies New Yorker's pride,—
Telling all the towns "provincial,"
Their diminished heads to hide.

Knickerbockers! oh, be joyful!
For our Palace now will pay,
Now that Barnum's mighty noddle
Has assumed the guiding sway.

A REMARKABLE MAN.—At a temperance meeting held in Alabama about six years ago, Colonel Lemanouski, who had been twenty-three years in the armies of Napoleon Bonaparte, addressed the meeting. He arose before the audience, tall, erect and vigorous, with a glow of health upon his cheek, and said:

"You see before you a man seventy years old. I have fought *two hundred battles*, have fourteen wounds on my body, have lived thirty days on horse flesh, with bark of trees for my bread, snow and ice for my drink, the canopy of heaven for my covering, without stockings or shoes on my *feet*, and only a few rags of clothing. In the desert of Egypt, I have marched for days with a burning sun upon my naked head; feet blistered in scorching sand, and with eyes, nostrils, and mouth filled with dust, and with a thirst so tormenting that I have opened the veins of my arms and sucked my own blood! Do you ask how I survived all these horrors? I answer, that under the Providence of God, I owe my preservation, my health and vigor, to this fact, that I *never drank a drop of spirituous liquor in my life*, and," continued he, "Baron Larry, chief of the medical staff of the French Army, has stated as a fact, that the six thousand survivors, who safely returned from Egypt, were all of those men who abstained from ardent spirits."

ELEVATED IRON RAILWAY TO THE PACIFIC.—Henry Smith, a young farmer of Michigan, has originated a novel invention for a Railroad to the Pacific. The track is to be supported on iron pillars connected by trusses well braced, and of sufficient strength to support the heaviest train of cars, and as the body of the car is suspended rather resting above the wheels, they can be made much larger than they now are, and greater speed attained, while the elevation of the track places it out of the way of all snow banks, cattle, buffaloes, drunken men, &c., and it would need no fencing, while the land beneath it could be cultivated. He proposes building the Elevated Railway on a "air line" between New York and San Francisco, and claims that we shall be within 40 hours of the Pacific! We do emphatically say, "Look out for the cars when the bell rings," and almost feel the necessity of steaming up ourselves to keep up with the "spirit of the age."

Prince Vasa, son of King Gustavus IV., of Sweden, who abdicated in 1809, has, as representative of the ducal line of Holstein Gottorp, issued a protest against the treaty of London, of May, 1852, which settled the question of the Danish succession. The Danish Government is preparing a memorandum in refutation of the Prince's pretentions. Prince Vasa is a Lieutenant Field-Marshal in the Austrian army, and is known never to have given up his claims to the Swedish throne, which are perhaps more apparent than those on the Danish throne.—Says a London paper: "In the vicissitudes and new combinations produced by a long war, it is not impossible that these pretensions of the Prince may acquire a value, and become a useful lever in the hands of the Allies."

THE CZAR'S CONUNDRUM.—

Czar Nicholas cried, as he looked in the glass,
'Ha! ha! why am I like a beautiful lass?'
'Well, why?' said the Empress, 'Because,' replied he,
'So many fine fellows are dying for me!'

The town of Cairo at the Mouth of the Ohio, is "picking up," a little. Twenty new buildings have recently been erected there, some of them large and substantial, and the levees are progressing, so that they, will soon be in a condition to resist the highest floods of the Ohio and Mississippi combined.

Holloway's Ointment and Pills.—*An Extraordinary Cure of Wound in the Foot.*—Extract of a letter from Mr. Thos. Roe, druggist of Whithorn, dated September 28, 1852:—"To Professor Holloway,—Sir:—Alexander M'Fadden, son of a gamekeeper, residing in this town, had a scrofulous sore in his foot for four or five years, with a continual discharge. Almost everything was tried in the hope of healing it, but without success; and when he was brought to me I recommended a trial of your Ointment and Pills, and am happy to say they healed all the sores and effected a perfect cure of the foot. Both father and son are prepared to confirm this statement." my3 d1w

THE RENOWNED REMEDY

HOLLOWAY'S OINTMENT!

THIS extraordinary Unguent is composed of the most healing Balsams, and when used in accordance with the directions which accompany each pot, will insure cures when all other means fail. Cases of the most desperate Skin diseases readily yield to its efficacy. It is famous when used in cases of Gout, Rheumatism, Contracted or Stiff Joints. In Asthmas it will do wonders, if well rubbed into the Chest.

A MOST ASTOUNDING CURE OF SCROFULOUS ULCERS.—A Case Certified by the Mayor of Boston, England.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To PROFESSOR HOLLOWAY—

Dear Sir: Mrs. Susan Dixon of Liquorpond-street Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear sir, yours truly,

Dated August 12, 1852. (Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post-office, Aldwick Road near Bognor, Sussex, dated Jan. 12, 1853.

To Professor HOLLOWAY—

Sir: I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful servant,

(Signed) ELIZABETH YEATES.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin diseases
Burns	Chapp'd hands	Glandular	Scurvy
Bunions	Corns (Soft)	swellings	Soreheads

☞ Will attend to the payment of Taxes and [illegible] of Real Estate.

A friend in Washington has sent us a very curious *thanksgiving sermon*, delivered by Rev Dr. Smith, on last Thanksgiving day, in the Federal city. It is a most singular medley — Such platitudes it is rare to find in public discourse. Listen:

"A rendering of thanks is the act of an intelligent man, who receives a benefit, appreciates the kindness of a giver, and sees the propriety of an acknowledgment of that benefit, as well as of giving a corresponding expression of thanks. This is never done but by intelligent beings, and to none but intelligent beings. It is never done to any of the inferior animals.— We never think of returning thanks to animals for what they have done. The President's mounted guard, who are here in splendid uniform, seated among you, know the value of a good horse but none of them *ever think of returning thanks to his horse*. The words of the third chapter of the third epistle of James might be quoted on this occasion. It would be a ludicrous sight for a man to take off his hat to his horse and to thank it, although the same act would be proper to a gentleman or a lady; and the reason of this is, *because a horse is a horse*, and cannot appreciate any service, however splendidly performed! A thousand blessings be upon our worthy mayor for affording us an opportunity of offering up our thanks."

To be sure, Dr Smith, a 'horse is a horse,' that is an incontrovertible fact. Also, Boston is not Bengal, nor are flannel drawers made of tripe. Moreover, an ass is an ass, for that matter, but what have all these things to do with a Thanksgiving sermon?—*Knickerbocker*.

A gentleman asked a negro boy if he wouldn't take a pinch of snuff. 'No,' replied darkey, very respectfully, 'no thank you, Pomp's nose not hungry.'

Artists have adopted different emblems of charity. We wonder none of them ever thought of a piece of India rubber, which gives more than any other substance.

A DARK DAY IS BEFORE US!

THERE will be an extraordinary Eclipse of the Sun on the 26th day of this present May 1854 such as none but few of the inhabitants in this country have witnessed. It will be very much similar to the Great Eclipse of 1806 (which I cannot exactly recollect) but all the cows came home and the chickens went to roost—*so Grand Ma said*.

But what has the Eclipse to do with Real Estate?—What is more bright and beautiful than Milwaukee? Let none all within [illegible] yourselves and secure homes for your families before it is TOO LATE! For property in Milwaukee will be worth double its present price as soon as all our Railroads are completed, and that magnificent Hotel (which will soon be under way) is built. What made Chicago *what she now is*, and what has increased her property? The Railroads and Hotels! So has Cleveland been benefited in the same way, and so will Milwaukee receive her reward. We are bound to have One Hundred Thousand inhabitants before ten years roll around. Nothing can prevent it. Where is a more beautiful city to be found, surrounded by a country densely populated by energetic and thorough Farmers from all parts of the World—and as for Commercial and Mechanical operations, we have no equal this side of the Mountains! Our Water Power! What Western City can compare with it? So now take advice and secure yourselves homes, and be prepared for the Great Real Estate Sale, which comes off June 6th. I would also say to those who want to avail themselves of the benefit of this Sale to send in their list of lots before the 15th of May. I want to have my catalogue ready by the 20th.

BOOTH'S INK FOR SCHOOLS.

EAST SAGINAW, Mich., Aug 29, 1853.

W. W. BOOTH:

Dear Sir—I feel myself to be under weighty obligations to you for the dozen bottles of your *Superior Black Ink*. Several bottles are being used in my school, with most gratifying satisfaction. We hear not that common complaint of "poor pens," which we so often hear where an inferior or ordinary article of ink is used. "Tis not its jetty, black, and shining smooth surface, alone, that gives it a superiority over other articles of the same name, but the readiness with which it always flows from the pen, and the property which effectually prevents metallic pens from corroding, under all ordinary circumstances. I can most cheerfully recommend its introduction into our primary schools as being precisely adapted to the use of children. Respectfully Yours, &c.,

J. O. SELDON, *Principal of Buena Vista Academy, East Saginaw, Mich.*
